

## IN THE NEXT ISSUE!

### *Special paper*

Rzepecki M. – Phosphorus dynamics in lacustrine sediments: contents and structural fractions in relation to lake trophic state and chemical composition of bottom deposits

### *Regular research papers*

Bodesmo M., Romano B., Pacicco L., Cagiotti M.R., Ranfa A. – Changes in land use in an historical area of Central Italy over twenty years: the use of environmental indicators

Palijan G. – Different impact of flood dynamics on the development of culturable planktonic and biofilm bacteria in floodplain lake

Peng Y-L., Wu N., Gao X-F., Fang Z-Q., Xiao W-Y. – Soil seed banks in lakeshore wetland: relation to the extant vegetation

Szoszkiewicz K., Kayzer D., Staniszewski R., Dawson F.H. – Measures of central tendency of aquatic habitat parameters: application to river macrophyte communities

Akbar K.F., Hale W.H.G., Headley A.D. – Evaluation of conservation status of roadside verges and their vegetation in North England

Wu G-L., Chen M., Du G-Z. – Effects of seed mass and light on seedling success in *Artemisia sieversiana* Willd in the Tibetan Plateau (China)

Mróz L., Demczuk M. – Contents of phenolics and chemical elements in bilberry (*Vaccinium myrtillus* L.) leaves from copper smelter area (SW Poland)

Wódkiewicz M., Kwiatkowska-Falińska A. – Small-scale spatial pattern of a seed bank in old-growth deciduous forest

Wang K., Shao R., Shangguan Z. – Changes in species richness and community productivity during succession on the Loess Plateau (China)

Czarnecka J., Kitowski I. – Seed dispersal by the Rook (*Corvus corax* L.) in agricultural landscape

Fischer Z., Pachowska M., Tomala K. – Interactions between the moisture and activity of soil and the biomass of vegetation and invertebrates in non-grazed Siberian steppe (Russia)

Růžička V., Mlejnek R., Šmilauer P. – Local diversity versus geographical distribution of arthropods occurring in sandstone rock labyrinth

Albayrak T., Bairlein F., Erdoğan A. – Habitat parameters and breeding density of Krüper's Nuthatch *Sitta krueperi* (Pelzeln, 1863) in south eastern Turkey

Lee S., Choi J., Jabłoński P.G., Choe J. – Parental provisioning in response to natural variation of brood size in the Black-billed magpie (*Pica pica*): video analysis of behaviors in the nests

Lin G., Ci H., Thirgood S.J., Zhang T., Su J. – Genetic variation and molecular evolution of endangered Kozlov's pika (*Ochotona koslovi* Büchner) based on mitochondrial cytochrome b gene

(continued overleaf)

### *Short research contributions*

*Purahong W., Lerstaveesin P., Ampornpan L.* – Succession of fungi associated with decomposition of leaf litter in tropical evergreen forest (Northeastern Thailand)

*Paušič I., Škornik S., Culiberg M., Kaligarič M.* – Weed diversity in cottage building material used in 19<sup>th</sup> century: past and present of the plant occurrence

*Zalewski M., Ciurzycki W.* – Does genome size explain rarity in beetles? The case from Coccinelidae and Chrysomelidae families

*Krajewska A., Mizera T.* – Changes in breeding populations of six farmland bird species in Western Poland between 1987 and 2007

*Redolfi De Zan L., Battisti C., Carpaneto G.M.* – Effect of spring water stress induced by fishery farming on two duck species, *Anas platyrhynchos*. and *A. crecca*., in Mediterranean wetland

### *Research note*

*Dolenec Z.* – Response of the Blackcap (*Sylvia atricapilla* L.) to temperature change
